

WATER DAMAGE CHECKLIST

Treadmills

1. Check front and rear roller (rollers may be noisy and may have water inside)
 - You will need to lean machine onto its side to see if any water leaks out. If water does leak out then the rollers must be replaced.
2. Check ALL electronics (including console)
3. Check for warped deck
4. Check for worn belt
5. Check incline motor for damage
6. Check drive motor for damage
