1. Remove the Pedal Soft Cushion
2. Remove the five bolts securing the pedal plastic.
3. Remove the four bolts Pedal Support Base
4. Remove the Pedal Buffer Covers by removing the screws on both sides. You will have to pull the two covers apart after removing the screws as they are also held together by taper fixing inserts. This will expose the Pedal Buffer Assembly.
5. Unbolt the Pedal Buffer Assembly by removing the four bolts on the underside of the pedal arm.
6. Replace the old Pedal Buffer Assembly with the new one shipped.
7. Reassemble by following this procedure in reverse.

Repeat this process for the other Pedal Buffer Assembly.
