

# **T8600S/HRC ASSEMBLY INSTRUCTIONS**

## **1. INSTALL CONSOLE ASSEMBLY**

Place the console supports in the frame console support brackets. Secure the console supports with the 6 Allen-head bolts provided. Make sure the bolts are tight.

## **2. PLUG IN 2 CONSOLE WIRES**

Plug the 2 wire connectors into the connector receptacles on on the large circuit board. The connectors are 2 different sizes to assure a correct connection. The larger connector goes into the large receptacle. Tighten the cables with cable ties attached and make sure the cable is away from the fan.

## **3. ATTACH THE HANDLEBARS**

Place a handlebar on one of the console supports and attach with two bolts. Repeat on the other side.

## **4. ATTACH MOTOR COVER**

Place the motor cover over the treadmill front end and secure with the screws provided.

## **5. READ THE OWNER'S MANUAL**

Now refer to your owner's manual for proper start up and console operating instructions.
